COMMENT

Meeting Attended:

I was not able to attend a meeting

Important Issues:

Health and Safety, Visual / Aesthetic Resources, Other, Proximity to Residences

OTHER: Property Devaluation

Property Uses:

Residential

Comment:

The proposed power lines should not run thru an existing residential neighborhood. As a resident of Hatchet Ranch East, I think what makes the most sense is to run the lines down the railroad tracks where 1) land has already been cleared, 2) it does not effect any homes. The new proposal will run directly over some homes. Would you like to live in that situation? Transmissions lines running thru housing developments will only decrease property values, and will not be welcoming for anybody interested in moving into the area.
